Profile box/page

To update your profile, go to the LibApps Dashboard (use the drop-down menu from the blue tab on the toolbar), then select the “My Profile” tab.

Also, the consensus is that profile boxes will not appear on the main page of each LibGuide in v. 2 but instead as the last element in the left hand side navigation box and will be called “Contact”. This will link to a Contact page - See example: http://libguides.ucalgary.ca/SGMA217

To create the “Contact” page in your LibGuide:
First add “Contact” as the last navigation item on the home page of your guide
Go to that page and “Add a New Box”
Choose “Profile” as the box type
